

**POP EVIL** recently announced a brand new single and music video for a track called *“Waking Lions”*, exclusively through VEVO. As previously heard on SiriusXM'S Octane channel, *“Waking Lions”* is the first bit of music we’re hearing from the band's 5th studio album. *“This is a Dawn of a New Day for Pop Evil,”* says Kakaty. *“The new lineup feels like a whole new chapter for us. We could not be more proud to lead off this new album cycle with Waking Lions, sending a positive message to our fans.”*

Pop Evil will release ***Pop Evil***, their fifth studio LP on February 16, 2018, via Entertainment One.

The band brought on veteran producer **Kato Khandwala** and have been hard at work since early June. The band spent most of the summer in Nashville, TN at Studio A in [Sound Emporium Studios](#) and finished up the album at Sphere Studios in Los Angeles, CA.

The new self-titled LP will be the highly anticipated follow up to *UP*, which debuted at #1 on the Billboard U.S. Independent Albums Chart, #3 on the Billboard Top Hard Rock Albums Chart and #25 on the Billboard Top 200 Chart in the week of its release. *UP* produced four top 5 singles with *“Footsteps,” “If Only For Now,” “Ways to Get High”* and *“Take It All.”* *“Footsteps”* not only reached #1 but went on to be the longest #1 single of the band's career.
